

KS5 Option Columns – 2017

Below are the Key Stage 5 option columns for September 2017. We recommend that most students choose 3 options (maximum one subject from each column). These option blocks have been put together using the choices that students made earlier in the year and represent the combination which allowed for the optimum number of students receiving their chosen subjects.

Asterisked subjects are part of a collaborative programme with Queen Elizabeth II High School, Ramsey Grammar School and University College Isle of Man.

Detailed information relating to travel to and from other Centres will be published in the Collaboration Handbook. Where practical, students will be expected to use public service buses. Where this is not possible transport will be provided. Please note that any student wishing to study a UCM course must complete a separate interview with College staff.

Where students cannot select their preferred choices it may be possible to study a non-collaborative subject at QEII. For more information on this please speak to Mrs. Almond or Mr. Danielson via the school on 01624 693500 or e-mail CRHSEnquiries@sch.m

A	B	C	D
Engineering**	Art and Design	Business Studies	Food and Nutrition*
PE	Biology	English Literature	Chemistry
Physics	Computer Science*	Maths	History
Psychology	Economics*	BTEC Applied Science	Music*
Textiles	French*		Product Design
Environmental Science*	Geography		Sociology*
	Performing Arts		
	RE*		

* Please note that subjects marked with an asterisk will be taught in collaboration with other school 6th forms (QEII and/or RGS), as outlined at our Pathways Evening.

** Engineering is being offered in collaboration with UCM. Unfortunately UCM have withdrawn their offer of Health and Social Care and does not appear on the options grid.
